The Honorable Herbert Brownell
Attorney General
Department of Justice
Washington 25, D. C.

Dear Herb:

I appreciate it that you brought to my attention a report which the Federal Bureau of Investigation received from a newspaper source and passed to you respecting an alleged recent meeting of high officials of the CIA. This report indicated that at this meeting CIA "agreed to allocate five million dollars to be expended in Korea for the purpose of creating incidents which would place Chiang Kai-shek in an unfavorable light and which subsequently could be used as a basis for swaying public opinion against the Chinese Nationalists to the end that Formosa could be placed under a United Nations trusteeship." The report further indicated that the source of this information considered "that it was very doubtful if Mr. Allen Dulles, Director of the Central Intelligence Agency, had any knowledge of this project which would come under Mr. Frank Wisner."

There is no basis whatever for this fantastic report. This Agency is following our national policy with regard to the support of Chiang Kai-shek and is not a party to any maneuver of any nature which would tend to weaken his cause or that of the Chinese Nationalists.

Of course no such funds could be committed by the Agency without my personal knowledge and approval.

A similar report was brought to my attention some weeks ago by a distinguished Senator, and I gave him a similar statement as to its complete inaccuracy.
